

THE TULIP

PRESHAPED EMBRYO TRANSFER CATHETER WITH TULIP SHAPED BULB

The Tulip is a set for difficult cervical passage, consisting of two parts: a guiding catheter (A) and a loading catheter (C).

FEATURES

- preshaped guiding catheter, ideally curved for easy entry when uterus is flexed
- the Tulip tip enables easy atraumatic entry through the cervical canal
- positioner for depth adjustment
- markings on outer tube for easy positioning
- handle with luer lock fitting for a more secure connection to syringes
- reinforced metal support of loading catheter for optimal control
- arrow marking on outer tube for curve indication
